FEEL THE
ARTISTIC
IMPRESSION

STEP : 1

Cut your sheets as per your desired dimensions

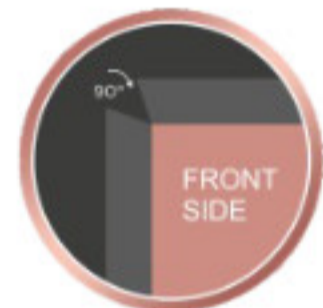

STEP : 2

Use v-groove cutter to mark a groove (to bend) on the sheet

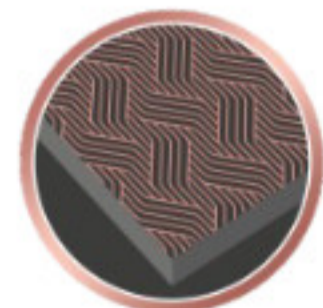

STEP : 3

Next use a regular pair of scissors and trim the edge out

STEP : 4

Place the sheet front up and use the groove marks to bend the sheets towards outside

STEP : 5

Now your sheet is ready to be use

**DISCLOSURE
SAMPLE THICKNESS**

Thickness : 3 MM, ±10% (Standard)
Sheet Size : 1220 x 2440 (Standard)

Note : This sample represents the actual size, finish and thickness of product for entire range of catalogue.

Diamond Cutter Blade

U-Groove Radius Cutter

Virgo PVC Laminates can be cut, routed and drilled with the same standard tools which are mostly used in wood works. (We recommend using diamond cutter blade for cutting V-Groove cutter for bending up to 90 Degree) All blades must be sharp to remove any burrs by cutting process. Use a smooth file to feather all corner edges.

**ADVANTAGES
WITH VIRGO PVC**

We are creating the highest-quality PVC laminate that perfectly synchronizes cutting-edge technology with sophisticated color schemes to give the finished product a stylish and contemporary feel. Thanks to our high-quality product's attributes and installation versatility, we are able to offer the most competitive collections of various laminates in the market.

about us

ARCHITECTURE
COLLECTION 2023-24

O U R S T O R Y

Design is intelligence made visible. Behind every design, there is an even more interesting story. Virgo PVC laminates help you fill the colours of excitement to your design story! Choose from a wide variety of designs based on textures, colours and patterns & let your perspectives reflect your design. Blending the different design philosophies aligned and in tune with the global trends our designs are always updated. Our years of experience & expertise in laminates enables us to proactively gauge the needs of the industry. We consistently innovate and create designs at scale which direct the design trends. Crafted in consultation with designers, architects and the finest craftsmen in the trade, our laminates are best known for their impeccable quality & aesthetics. So, when you choose our laminates, it means you are putting your trust in one of the finest quality products in the segment.

At Virgo, quality is of utmost importance and we maintain the same in all the business heads of ours. We never compromise on quality and that is why we are recognized as indisputable leaders of laminate, plywood, aluminum, PVC and ACP. Apart from our adherence to quality, our 30 years long experience trail helps us deliver unmatched products to our customer. Be it laminate, plywood, aluminum products, for us, customers satisfaction is a barometer of our progress. In fact, we also focus on the overall development of society by favouring sustainable development. We are equivalently concerned about the environment, so we produce eco-friendly products that do not harm nature. We always stick to our ethos, value system and professionalism that fuel our spirit to serve the finest quality products. This is applicable in each and every stage of the manufacturing process. Right from picking up the raw materials to serving the final product, we observe all the standards of quality and safety due to which, today, we have earned the market recognition of highest producer and exporter of laminates. We aspire to hold this position for many more years to come by keeping on innovating and serving exactly the right products.

TECHNICAL SPECIFICATIONS

- Thickness :** 3 mm, + 5% Standard
- Sheet Size :** 1220 x 2440 mm (Standard)
- Size Options :** Length - Any on request, Width - Up to 1220 mm
- Range :** Our PVC Laminates are available in a variety on range. Customized sizes and shades can be developed on request.
- Adhesive :** These laminates are easy to apply with the standard laminating system, including most of the conventional adhesive normally used with plastic laminates such as many water based and solvent based. We do not recommend the use of heat activated adhesives.
- Laminates :** Proper substrates must be used and careful bonding procedure must be observed. Substrates should be of good quality of plywood, high density practical board, high quality fiber board or PVC board. The face of substrates must be smooth or free of grease, wax, dust, chips and other foreign matter. We do not recommend us of PU base, melamine, lamination (wax) on our laminates. The application of these will spoil the originality and natural beauty of High Gloss PVC flexible sheets.
- Cutting & Installation :** These high gloss PVC flexible sheets can be cut, routed and drilled with most standard wood working tools or equipments. All blades must be sharp to remove any burrs that may occur in the cutting process. We recommend the use of a leather to smooth all corner edges.
- Maintenance :** Any cleaning agent containing acids, alkalis or abrasive should not be used to clean the high gloss flexible sheets. We recommend to use only clean water for cleaning of sheets.

Note : Virgo warrants that all its products are free from manufacturing defects and perfectly ideal for use in normal conditions. In any case of claim, the liability of the company is only limited to the cost of the product only. This may be color variations from batch to batch. The sample swatches in the catalogue represents the design, colours and ruches. They do not present at the Actual sheets.

CARE & MAINTENANCE

As aforementioned, PVC laminates are easy to clean and maintain. But for a healthy and longer life of the laminate, you need to follow the basic dos and don'ts during its maintenance.

- DOs**
 - Always prefer diluted mild liquid detergent or organic cleansers for cleaning. - Use soft damp clothes for wiping.
 - Wipe off the spills immediately, if they happen. - Treat any difficult stains with a mixture of water and baking soda.
 - Dry clean the surface after cleaning to prevent marks on spots.
- DON'Ts**
 - Avoid cleaning agents containing acids or any harsh chemicals. - Avoid cleaners that leave behind a soapy residue.
 - Avoid excessive scrubbing as it can damage the surface. - Avoid abrasive cleaning tools like steel scrubbers, knives or any sharp objects, as they can leave scratch marks on the laminate surface.

KINDLY REMOVE THE PROTECTIVE FILM WITHIN 7 DAYS OF INSTALLATION OF LAMINATES.
