The Virgo Group of companies constantly looks out innovation and challenges in the industry across its group companies. It maintains a philosophy of reaching out to perfection, no matter what it takes. Whether high-end resources or superlative manpower with a team size of over 3,000+ employees, Virgo Group's employees spread across the nation are working together in a rewarding environment to achieve the objectives of the company founded upon, long before government-issued regulations concerning the protection of the environment, Virgo Group had already invested in "environment-friendly" initiatives. These included reforestation programs and the elimination of the use of tropical woods and harmful ozone-damaging chemicals. We are taking its actions on a philosophical pedestal. Virgo today has evolved into a dynamic group that has been generating optimum profit through the total satisfaction of customers, suppliers, employees, and society.
